infringement of Apple's U.S. Patent Nos. 7,362,331 ("the '331 Patent"), 7,479,949 ("the '949 Patent"), 7,657,849 ("the '849 Patent"), 7,469,381 ("the '381 Patent"), 5,920,726 ("the '726 Patent"), 7,633,076 ("the '076 Patent"), 5,848,105 ("the '105 Patent"), 7,383,453 ("the '453 Patent"), 5,455,599 ("the '599 Patent"), and 6,424,354 ("the '354 Patent") (collectively, "the Asserted Patents").

### **Jurisdiction and Venue**

7. This Court has subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331 and 1338(a) because this action arises under the patent laws of the United States.

8. This Court has personal jurisdiction over the Defendants because the Defendants have established minimum contacts with the forum state of Delaware. Defendants, directly and/or through third-party manufactures, manufacture or assemble products that are and have been offered for sale, sold, purchased, and used within the state of Delaware. In addition, Defendants, directly and/or through their distribution networks, regularly place their products within the stream of commerce, with the knowledge and/or understanding that such products will be sold in Delaware. Thus, Defendants have purposefully availed themselves of the benefits of the state of Delaware and the exercise of jurisdiction over Defendants would not offend traditional notions of fair play and substantial justice.

9. Defendants transact business in the state of Delaware because, among other things, Defendants manufacture and distribute products that are offered for sale, sold, purchased, and used within the state of Delaware. Defendants have also committed tortuous acts of patent infringement in Delaware and are subject to personal jurisdiction in Delaware. Venue is thus proper in this district pursuant to 28 U.S.C. §§ 1391(b), (c), (d) and 1400(b).

**The Patents in Suit**

10. The Asserted Patents cover generally various software and/or hardware technologies that can be incorporated into mobile communication devices, including cellular phones and smart phones, among various other types of products.

11. Apple owns by assignment the entire right, title, and interest in and to the Asserted Patents, including the right to bring this suit for injunctive relief and damages.

12. All of the Asserted Patents are valid and enforceable.

13. Upon information and belief, Defendants have infringed and continue to infringe one or more claims of each of the Asserted Patents by engaging in acts that constitute infringement under 35 U.S.C. § 271, including but not necessarily limited to making, using, selling, and/or offering for sale, in Delaware and elsewhere in the United States, and/or importing into Delaware and elsewhere in the United States, certain mobile communication devices including cellular phones and smart phones, including at least phones incorporating the Android Operating System (collectively, “the Accused Products”).
