4. Venue is proper in this district under 28 U.S.C. §§ 1391(c) and 1400(b). On information and belief, Defendant has transacted business in this district, and has committed and/or induced acts of patent infringement in this district.

5. COUNT I **INFRINGEMENT OF U.S. PATENT NO. 7,680,629**

6. Plaintiff is the owner by assignment of United States Patent No. 7,680,629 ("the '629 Patent") titled "System and Method for Providing Notes in Measurement Devices." The '629 Patent issued on March 16, 2010. A true and correct copy of the '629 Patent is attached as Exhibit A.

7. Upon information and belief, Defendant has been and is now infringing the '629 Patent in the State of Texas, in this judicial district, and elsewhere in the United States, by, among other things, directly or through intermediaries, making, using, importing, providing, supplying, distributing, selling, and/or offering for sale apparatuses and systems (including, without limitation, UP24, UP, and the related applications) for providing a measuring device

with the capabilities of note taking, at least one measuring component, a note control component, and a CPU, adapted to link the measuring event to a note. Defendant is thus liable for infringement of the '629 Patent pursuant to 35 U.S.C. § 271.

10. Unless a permanent injunction is issued enjoining Defendant and its agents, servants, employees, representatives, affiliates, and all others acting on in active concert therewith from infringing the '629 Patent, Plaintiff will be greatly and irreparably harmed.

COUNT II

11. Plaintiff is the owner by assignment of United States Patent No. 8,078,430 ("the '430 Patent") titled "System and Method for Providing Notes in Measurement Devices." The '430 Patent issued on December 13, 2011. A true and correct copy of the '430 Patent is attached as Exhibit B.

12. Upon information and belief, Defendant has been and is now infringing the '430 Patent in the State of Texas, in this judicial district, and elsewhere in the United States, by, among other things, directly or through intermediaries, making, using, importing, providing,

supplying, distributing, selling, and/or offering for sale apparatuses and systems (including, without limitation, UP24, UP, and the related applications) for providing a method of note taking in an electronic measurement device, by receiving and recording a note corresponding to a measuring event of the electronic measurement device input from a note input device, the note information being information other than measurement of the individual measuring event, and linking the note with the individual measuring event. Defendant is directly infringing, literally infringing, and/or infringing the '430 Patent under the doctrine of equivalents. Defendant is thus liable for infringement of the '430 Patent pursuant to 35 U.S.C. § 271.

13. On information and belief, to the extent any marking was required by 35 U.S.C. § 287, all predecessors in interest to the '430 Patent complied with any such requirements.

14. As a result of Defendant's infringement of the '430 Patent, Plaintiff has suffered monetary damages and is entitled to a money judgment in an amount adequate to compensate for Defendant's infringement, but in no event less than a reasonable royalty for the use made of the invention by Defendant, together with interest and costs as fixed by the court, and Plaintiff will continue to suffer damages in the future unless Defendant's infringing activities are enjoined by this Court.

15. Unless a permanent injunction is issued enjoining Defendant and its agents, servants, employees, representatives, affiliates, and all others acting on in active concert therewith from infringing the '430 Patent, Plaintiff will be greatly and irreparably harmed.
